Shrikanth Narayanaswamy Chandrasekaran

🌐 *https://snaraya7.github.io/*   ✉ snaraya7@ncsu.edu or nc.shrikanth@gmail.com   📍 Raleigh, North Carolina, USA

I am **Shrikanth a Ph.D. candidate** in Computer Science at NC State University with **10 years of industry experience**. My research interest includes Software Engineering and Machine Learning.

EDUCATION

2017 - **Ph.D. Candidate in Computer Science** at North Carolina State University (*Graduating* - December 2021)

2004 – 2008: 4 year full-time **Bachelor of Engineering in Electronics and Communication**, Saveetha Engineering College, affiliated to Anna University – Chennai

INDUSTRY EMPLOYMENT HISTORY (2008 - current)

Summer 2021 **Microsoft**, USA
Role: *Research Intern*
Developer Satisfaction (productivity): Perform large-scale data analysis on software engineers' feedback about their day-to-day work and on hundreds of software repositories to offer actionable recommendations (through machine learning models) to improve developer satisfaction across a large unit within Microsoft.

Summer 2020 **Fujitsu Laboratories of America**, USA
Role: *Research Intern*
Low code platform: Improved deep learning-based 'Code Retrieval' models (using CodeBERT & CodeSearchNet deep learning models) that catalyze developer productivity.

2014 – 2017 **Accenture Labs, India (Full-time)**
Role: Technology R&D Specialist
- Mentored interns and software engineers for research projects.
- Research Project #1: Crowdsourcing - Performed large scale data analysis to find obstacles for enterprises to crowdsource software development
- Research Project #2: Log Analysis - Analyzed voluminous incident tickets and their associated log files of a supermarket chain to prescribe solutions to minimize incident resolution time.
- Research Project #3: Requirements Visualization - Built Eclipse IDE plugins for visual requirements and component reuse driven rapid application composition.
- *Recognized for outstanding contributions (patents and publications)*

2011 – 2014   **ABB India Limited, Bangalore India (Full-time)**
Role: Software Engineer | Software Development, LV Systems R&D

- Project #1: Product Development - Managed the software life-cycle of a standalone Low voltage switchgear configuration and reporting product.
- Project #2: Trained many software engineers to transition their skills from .NET to Java-based technologies.
- *Star Employee for a quarter for meeting a short deadline*

2008 – 2011   **Infosys Limited, Chennai India (Full-time)**
Role: Senior Systems Engineer

- Project #1: Finmapper - Developed rich user interface rich integration tools that ease software developers to orchestrate banking services.
- *Certifications: Sun Certified Java Programmer and Sun Certified Web Component Developer*
- *Finacle on the spot award for learning a niche skillset and integrating an entire product onto an IDE as a newbie.*

Shrikanth Narayanaswamy Chandrasekaran

🌐 *https://snaraya7.github.io/*   ✉ snaraya7@ncsu.edu or nc.shrikanth@gmail.com   📍 Raleigh, North Carolina, USA

SKILLS

- ❖ *Programming*: Java (SCJP and SCWCD certified) & Python. *Fundamentals*: Data Structures, Algorithms & Compilers
- ❖ *Statistics:* Hypotheses testing, effect size, analysis of distributions, etc
- ❖ *Machine Learning:* Predictive/Estimate modeling, Weka data mining, scikit, Deep learning (Tensorflow, CNN & RNN) Carrot2, ELK, and OPEN NLP. *Visualization:* Plotly, MATLAB, R, etc.
- ❖ *Front-End*: Java Swing, Eclipse Plugin development, and HTML-CSS. *Database:* RDBMS (MySQL & MariaDB) and Kusto (Microsoft).
- ❖ *Distributed computing*: Python multiprocessing on High-Performance computing

GRANTED PATENTS

1. Method and system for visual requirements and component reuse driven rapid application composition
2. Incident Prediction and Prevention
3. Generating a Test Script Execution Order

RESEARCH (*Research Assistant*, North Carolina State University) 2017 to present

Interest: Software Engineering and Machine Learning | Focus area: Software Quality Assurance | **Lab:** RAISE(http://ai4se.net/) **Advisor:** Dr.Tim Menzies (http://menzies.us/) Our recent empirical study confirms that "*96% of the time, we do not want and we do not need data-hungry methods*" (refer to publication [1] below).

Other research areas: Code Retrieval, Crowdsourcing, Test case prioritization, and Software Maintenance.

PUBLICATIONS

1. **N. C. Shrikanth**, Suvodeep Majumder, and Tim Menzies. Early Life Cycle Software Defect Prediction. Why? How? (To appear in **ICSE** '21).
2. **N. C. Shrikanth**, William Nichols, Fahmid Morshed Fahid, and Tim Menzies. Assessing Practitioner Beliefs about Software Engineering. (To appear in **EMSE '**21 Journal).
3. **N. C. Shrikanth**, and Tim Menzies. 2020. Assessing Practitioner Beliefs about Software Defect Prediction. (**ICSE** '20 SEIP) 🏆 (Best Paper Nominee).
4. Anurag Dwarakanath, **N. C. Shrikanth**, Kumar Abhinav, and Alex Kass. 2016. Trustworthiness in enterprise crowdsourcing: a taxonomy & evidence from data. (**ICSE** '16 SEIP).
5. Anurag Dwarakanath, Upendra Chintala, **Shrikanth N. C**., Gurdeep Virdi, Alex Kass, Anitha Chandran, Shubhashis Sengupta, and Sanjoy Paul. 2015. CrowdBuild: a methodology for enterprise software development using crowdsourcing (CSI-SE **ICSE** '15).

TEACHING ASSISTANT

1. CSC 440 **Database Management Systems** - Instructor: Dr. Rada Chirkova
2. CSC 495 **Software Testing** - Instructor: Dr. Kathryn T. Stolee
3. CSC 510 **Software Engineering** - Instructors: Dr. Jamie Jennings, Dr. Nicholas A. Kraft, and Dr. Emerson Murphy-Hill
